## DEPARTMENT OF NATURAL RESOURCES

MICHAEL R. STYLER  
Executive Director

### Division of Oil, Gas and Mining

JOHN R. BAZA  
Division Director

## Technical Analysis and Findings

### Utah Coal Regulatory Program

**PID:** C0070022  
**TaskID:** 4491  
**Mine Name:** SAVAGE COAL TERMINAL  
**Title:** ABANDON WELL S-2-GW

### Operation Plan

#### Hydrologic Ground Water Monitoring

##### Analysis:

The Permittee proposes to cease monitoring of and remove well S-2-GW. The Permittee justifies the removal that the well was install for potential for impact of coal to be stored in the area of the well. However, no coal was ever placed in the area and the area is now being used for trans-loading oil purposes. In addition, the Permittee has provided Stiff Diagrams to demonstrate the the groundwater quality has not changed over time. The reasoning provided in the amendment is reasonable and well documented. It is thus approved based on the addition of Well S-2-GW to Plate No. 7-7.
